

Student practice record

Practice = Progress

Consistent and dedicated practice is necessary to fully enjoy the musical experience. In addition to developing a greater love for playing, you will increase your skills and confidence and strengthen your contribution to the ensemble.

Making practice a set part of your day will ensure a consistent routine

Practice as your schedule allows but an ideal amount is 15-20 minutes *(not including warmups)*

Practice tips:

Warmups: Longtones, scales, arpeggios, improvisation

Ensemble/Sectional Pieces: Rhythms, notes, articulations, dynamics, tempo

Take a section at a time stopping & correcting mistakes

Record: At least once a week, record your playing and listen while reading along; listen for rhythmic flow, intonation, and corrected notes

Review piece again: Trying not to stop or pause
